# 1 Composite Wood Panels Market Overview

---

## 1.1 Product Overview and Scope of Composite Wood Panels

The Composite Wood Panels market was valued at XX Million US\$ in 2021 and is projected to reach XX Million US\$ by 2030, at a CAGR of XX% during the forecast period. In this study, 2021 has been considered as the base year and 2022 to 2030 as the forecast period to estimate the market size for Composite Wood Panels.

Global Composite Wood Panels industry market professional research 2017-2030, is a report which provides the details about industry overview, industry chain, market size gross margin, major manufacturers, development trends and forecast.

## 1.2 Executive Summary

|  | 2021                                       | 2030 |    |
|--|--|------|----|
| <b>Market Size (USD Million)</b>         | XX   | XX   |    |
| <b>Market Volume</b>                     | XX   | XX   |    |
| <b>Growth Rate (CAGR 2022-2030)</b>      | XX%  |      |    |
| <b>Major Market Players</b>              | Kronospan                                  |      |    |
| <b>Geographical Segment</b>              | North America                              | XX   | XX |
|  | Europe                                     | XX   | XX |

### 14.1 Methodology

### 14.2 Primary Research

We at Fior Markets employ iterative research methodology along with a combination of secondary and primary research to provide the most accurate market estimates and forecast. Key research steps include

- Data mining

This step includes in-depth data mining wherein we procure market data as well as any related information through different verified databases and sources.

- Data analysis

The procured information is then analyzed and mapped to assess the data as well as eliminate any discrepancies observed.

- Market Modeling

All the gathered data points are then studied to devise appropriate estimation and sizing model in an attempt to deduce viable conclusions. Subject-matter-expert and analyst perspective & based heuristic form of market sizing is an integral part of this stage

- Validation & publishing

Validation is the most important step in the process. Validation & revalidation via an intricately designed process helps us finalize data points to be used for final calculations.

### 14.3 Research Methodology

We implemented a combination of primary and secondary research to estimate and size our market. Secondary research was the initial phase involved in our study. This is where we conducted data mining and referred to verified data sources, such as independent studies, government and regulatory published material, technical journals, trade magazines, and paid data sources.

**For forecasting, the following parameters were considered:**

- Market drivers, challenges and opportunities along with their current and expected impacts
- Technological developments and current status with expected developments
- Products types and application trends and dynamics
- Consumer trends
- Unmet need analysis and demand forecasting

Weights were assigned to these parameters and their impact on the market was quantified using a weighted average technique in order to derive expected market Growth Rate.

All the estimates and forecasts are verified through extensive primary research with experts operating in this market, and include:

- Key market participants
- Manufacturers
- Sales and marketing team

#### 14.4 Assumptions & Exclusions

The report provides market size with 2021 as the base year in consideration and a yearly forecast till 2030 in terms of Revenue (USD Million) and Volume. The estimates for all segments including Type, and application have been provided on a regional basis for the forecast period mentioned above

- The report provides market size with 2021 as the base year in consideration and a yearly forecast till 2030 in terms of Revenue (USD Million). The estimates for all segments including Type, and application have been provided on a regional basis for the forecast period mentioned above
- We have implemented a mix of top-down and bottom-up approach for market sizing, analyzing the key regional markets, dynamics, and trends for various applications. The Global market has been estimated by integrating the regional markets.
- **Market estimates have mainly been based on the feedback obtained through primary interviews with key industry participants**
- Inflation has not been accounted for in order to estimate the market
- Numbers may not add up due to rounding off

#### 14.5 Secondary data sources

**List of secondary sources includes but is not limited to:**

- Hoover's
- Factiva
- Consumer Electronics Association (CEA)
- Secondary Research
- PC Magazines
- Physics Forum
- Investor Presentations
- Company Annual Reports
